GTN Mobile

SIM Card Online Application for International Students

Mobile Guide for Meiji University Students

Life in Japan & Mobile Contracts

Public Wi-Fi is limited in Japan. A mobile number is essential for:

Emergency Calls: Access Police (110) or Ambulance (119).

Identity Verification: Used in contracts, banking, government agencies, etc.

Online Services: SMS codes for apps and shopping.

Mobile contract challenges for Foreigners:

Standard carriers are difficult because they require:

✓ A Japanese bank account or local Credit Card.
✓ Strict screening that often rejects foreigners.
✓ Two-year fixed contracts with cancellation fees.
✓ Insufficient language support for customer service.

GTN Mobile solves all these problems for you!

10+ Languages Support

No Bank/CC Required

About the registration

Required documents

①Passport
②ID with overseas address
③Certificate of Eligibility (COE) or VISA stamp page photo

Application deadline

Please apply at least 7 days before your preferred pickup date..

If you missed picking up your SIM card at the airport after applying overseas, please follow these steps

①Resident registration

Register as a resident at city hall and have your address listed on your residence card

②Sharing residence card data

Submit your resident card data (after registration) to GTN.

③Send to your dormitory room

GTN will send it to your dorm, using the address on your residence card.

※ Please note that the phone number notified after application may change if you do not pick up your SIM at the airport.
